Experience

May 2017 – August 2017 – Instrumentation Laboratories, Bedford MA
Machine Learning Intern
Created and programmed logic for a proactive maintenance software for predicting instrument failures before they occurred. Managed a team of 5 graduate interns remotely from San Diego to create this software.

June 2016 – November 2016 – Instrumentation Laboratories, Lowell MA
Software Engineer Intern
Responsible for integrating, debugging and implementing all software components of adding an additional feature to a blood analyzer device.

Summer 2015 – ReputNation, Cambridge MA
Technology and Development Intern
ReputNation is a Harvard Innovation Lab, non-profit startup. I worked with founders to focus on development and worked on the team that implemented a trial run of their service in Lawrence, MA.

Summer 2015 - Subie Events, Cambridge MA
Marketing Coordinator
Responsible for acquiring vendors and sponsorships for 5K festivals in Portland, OR and Denver, CO while working out of Boston. Networked extensively and exceeded my targeted goals for funding for each festival.

Education
New College of Florida
Masters of Data Science
2017 – 2019

University Massachusetts Lowell
BLA Economics and Psychology (Magna Cum Laude)
2013-2016

Activities and Skills
• Habitat for Humanity Guatemala participant
• C, C++, Java, Python, SQL, R, SAS, Machine Learning algorithms, Neural Networks, Autoencoders, Agile Development, Logistic Regression
Machine Learning,
• Graduate from the Lee Institute of Real Estate in Brookline, MA

- Proficient in Spanish
- Co-founder and Treasurer of INSPIRE UML
  - Innovation and Entrepreneurship club
